

HE Olympic athletes are gathering from far and near. On next Tuesday the team sails, and all the men have instructions to be in town by Sunday at the latest. Many have come here in time to do a few days training before the start.

URT KERRIGAN, the great little high jumper, is staying at the N. Y. A. C. Kerrigan comes the Far West Position from the Far West-Portland, Ore. He has been jumping for fourteen years and has never been beaten. His best performance was a jump of 6 feet 4

Kerrigan is not training at all. He makes it a rule not to train much before any contest, and never to jump over 5 feet six inches in practice. He diets carefully, rests and sleeps as much as possible to gain a reserve store of nervous energy, and relies upon that to carry him over the bar when the test

Jump was in a dual meet between the Olympio A. C., of San Francisco, and the Multonomah A. C., of Portland. Kerrigan was just seventeen years old then, stood only 5 feet 4% inches and weighed about as much as a spring chicken. He cleared the bar handily at 6 feet 2 inches, just 9% inches over his head. He is a couple of inches taller now, and has increased his performance in proportion to his height. He has pole-vaulted 11 feet 1 inch, has won the Northwestern all-around championship, has played quarter on some of the strongest Western teams and is probably the best all-around athlete of his inches in the country.

The stories that come from Philadelphia contradict this. Philadelphians assert that Otto "quit," and that the

As the case now stands two competent men who are familiar with professional runners have testified that Hallen did not compete at the Caledonian games at Maspeth, L. James P.
